

28 JANUARY 2026

Works information: Siddeley Street sewer upgrade

Dear Liv Aston residents,

Construction is underway near the Liv Aston building as part of the Siddeley Street Sewer Upgrade project.

Greater Western Water is constructing a new sewer pipeline in Docklands, doubling the capacity of the existing sewer. This upgrade will ensure a safe and reliable sewer service for Melbourne's growing population.

This project is being delivered by Aqua Metro on behalf of Greater Western Water.

Ongoing works include

- Relocation of other underground utilities
- Saw cutting and excavation
- Installation of temporary fencing and barriers
- Use of trucks, excavators, and earth-moving equipment.

Duration of works

Started: 13 January

End Date: Relocation works are expected to be completed by March 2026. Main construction works will then start and continue until early 2027.

Working Hours: Monday to Saturday 7am – 10pm.

We will inform you in advance if there is any change to working hours.

What to expect during relocation works

- Utility relocation and sewer upgrades require noisy machinery for construction activities. Where possible, more noisy works will be between 7.45am to 4.45pm Monday to Saturday.
- Traffic management will be in place to help vehicles continue to move safely around the area.
- Full access to the Liv Aston car park from Siddeley Street will be maintained at all times. Access from Spencer Street will be closed until February 2027. Alternative access arrangements will be provided where needed.

Please be advised that the information above may change based on weather or site conditions. Any changes will be communicated to you in advance.

We are aware that other construction projects are taking place in the area. To minimise disruption, we are actively coordinating with those stakeholders to align schedules and reduce impacts on the community.

Need more information?

Thank you for your patience while we complete these essential works. We will provide further information and notification as our planning progresses.

If you have any questions or need more information, please contact us or visit our website via the QR code.
