

5 September 2025

Upcoming works in your area

To strengthen the reliability of Lancefield's water supply, Greater Western Water will be duplicating a section of pipe that carries water from Bore 3 in Lancefield to the Lancefield Water Filtration Plant.

We'll be working along a 1.6 kilometre section of Maloneys Road, between Parks Road and the water filtration plant.

Interflow will be completing these works on behalf of GWW.

Works start: Mid-September 2025

Duration: Around 3 months

Hours: 7am to 5pm, Monday to Friday.

Reinstatement: Within 3 weeks after works are completed. At this time, we'll fix any roads, driveways and nature strips that we altered during the works.

While we do our best to reduce any impacts, you may notice:

- construction noise and dust in the area
- traffic management crew onsite and changes to traffic, such as reduced speeds
- changes to road surfaces, driveways and nature strips
- machinery and materials in the nature strip.

Your water and sewerage services will not be disrupted. We'll get in touch if night works or property access is required.

Thanks for your patience while we complete these works.

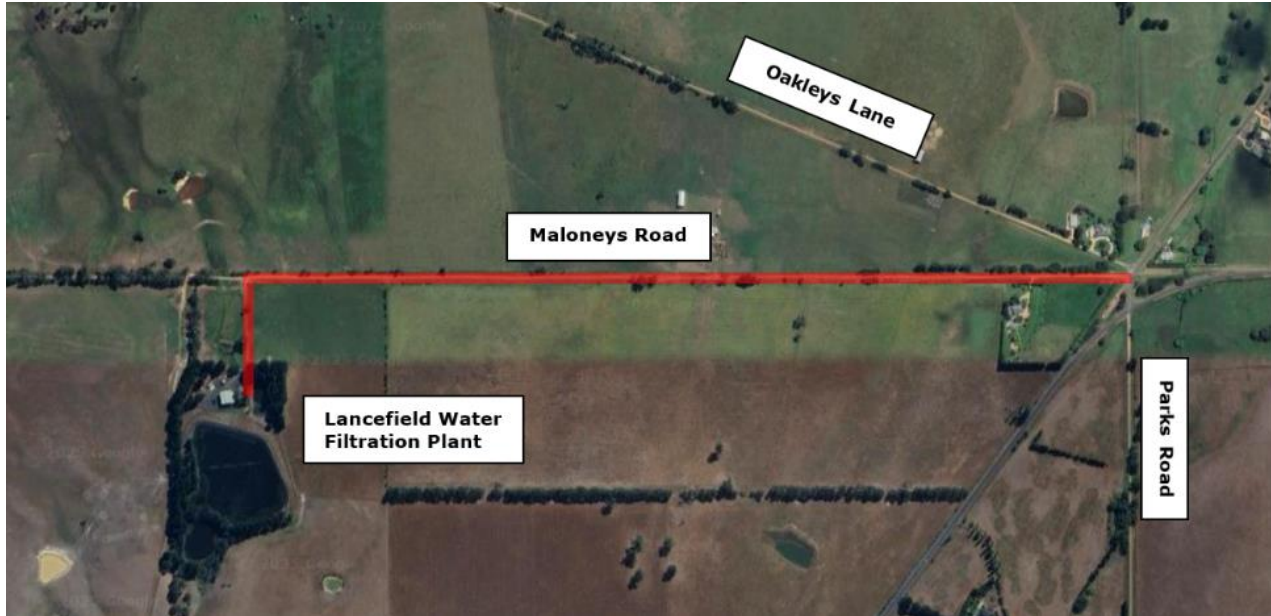

If you have any questions, please see the following contacts.

Interflow Name: Community Relations Phone: 0427 906 377 (business hours) Email: cgonzalez@interflow.com.au	Greater Western Water Customer service: 13 44 99 (24-hours)
