Pascoe Vale Road Water Main Renewal

Information for residents and businesses

Construction of your new, larger water main is in the final stage. Last year we finished construction of the new water main on Pascoe Vale Road between Fitzgerald Road and Albion Street.

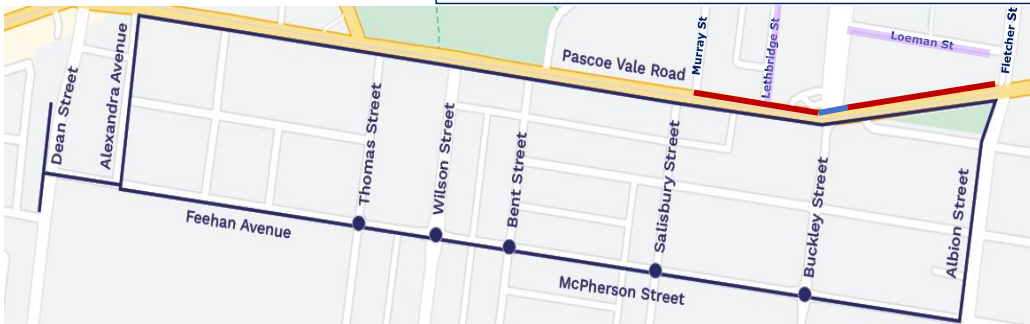

Nightworks on Pascoe Vale Road from Sunday 11 August 2024

From **Sunday 11 August 2024**, works will continue along the west side of Pascoe Vale Road between **Murray Street** and **Fletcher Street** and are expected to take approximately **four to five weeks** to complete. Works will occur between **7pm and 5.30am**.

These works involve water main installation between **Murray Street** and **Fletcher Street** on the west side of Pascoe Vale Road.

Whenever we can, we will undertake our noisiest work as early in the evening as possible. However, some noise can be expected while we complete these essential works. We thank you for your understanding and patience as we deliver this essential project.

Nightworks between Buckley Street and Fletcher Street.

- Nightworks** will take place between **Murray Street** and **Fletcher Street** in small sections from **Sunday 11 August 2024**, from **7pm – 5.30am**.
- Temporary closure of the west side of **Buckley Street** and **Pascoe Vale Road intersection** from **Sunday 11 August – Monday 12 August**, and from **Monday 2 September – Tuesday 3 September**, from **7pm – 5.30am**. Traffic management will be on site safely guide traffic and pedestrians.
- Temporary detours to safely guide vehicles and pedestrians through during road closures.
- Alignment of your new water main which is in the final stage of construction on Pascoe Vale Road.

***Construction timing is subject to change**

Temporary water supply

Properties on the west side of Pascoe Vale Road between **Buckley Street** and **Fletcher** will be connected to an above ground temporary water supply from **Friday 23 August 2024**. This will ensure your water supply will not be interrupted during the water main upgrade.

Changes to how you move around

Short term footpath closures and pedestrian detours may be in place during construction. Traffic Management personnel and signage will be in place to help you to move around safely.

- Short-term closure of the west side of **Buckley Street** and **Pascoe Vale Road intersection** from **Sunday 11 August – Monday 12 August**, with an additional closure from **Monday 2 September – Tuesday 3 September**, from **7:00pm – 5.30am**
- There will be detours in place on **Hutcheson Street, Lethbridge Street** and **Loeman Street** to ensure access to **Pascoe Vale Road** and **Buckley Street**.

What to expect

While we'll continue to make every effort to minimise disruption and inconvenience to you, the following can be expected as we move through the area:

- Works from **7pm to 5.30am, Sunday to Thursday**. We will notify you in advance if works outside of these hours are required.
- Noise and dust from machinery and vehicles during working hours.
- Excavation work with fencing, barricades and trench covers to keep you safe.
- Temporary water supply will be connected to properties on the west side of **Pascoe Vale Road** between **Buckley Street** and **Fletcher Street**.
- Short-term storage of equipment and materials in the street, necessitating the closure of a small number of on street parking spaces.
- Delays are expected so please allow for extra time when travelling through the area.

Why we're working at night

It's necessary to carry out these works at night to minimise disruption to traffic, tram and bus services, and businesses along Pascoe Vale Road. Where possible we will perform the noisiest work at the start of our construction hours. Please note that unavoidable noise associated with construction will still occur throughout the night.

Your local businesses are open as usual as we complete these essential works.

Need more information?

Thank you for your patience during these essential works. Every effort will be made to minimise inconvenience to you during the works and we will keep you informed of our progress.

Commented [AD1]: Does this need to be included if the temp supply notification is going out?

Commented [AD2R1]: We could potentially remove this and flag reinstatement at the bottom of the letter

Commented [AD3]: IS this duplication>

Commented [AD4]: Please add info regarding reinstatement and commitment to update residents
