

22 JULY 2026

Siddeley Street sewer upgrade: **upcoming works at Spencer Street and Flinders Lane intersection**

We're constructing a new sewer pipeline in Docklands to double the capacity of the existing sewer. This upgrade will help us provide a safe and reliable sewer service to Melbourne's growing population.

This project is being delivered by Saunders Aqua Metro on behalf of Greater Western Water.

Site investigation works

Site investigations help us understand ground conditions and verify the location of infrastructure underground. This lowers the risk of service and utility issues during major construction, such as during excavation and tunnelling.

Site investigations will take place from **Wednesday 5 August to Friday 14 August 2026**, weather and site conditions permitting. Activities will include non-destructive digging, saw cutting and excavation to safely access existing services and utilities.

Works will take place at the corner of Spencer Street and Flinders Lane. You can expect to see temporary barriers, trucks, excavators and earth moving equipment. Temporary lane closures will occur during the day to facilitate these works. See map overleaf for more details on work area location.

What to expect

All works will occur within a secure work site.

Left turn out of Flinders Lane will be unavailable during works.

Temporary detours for traffic will be in place to ensure the safety of the community and our workers.

Construction noise is expected during works, but we will reduce it wherever possible.

You will see increased truck movements in the area.

Dust is expected to be minimal. We'll use dust suppression and regular site maintenance to reduce any impacts.

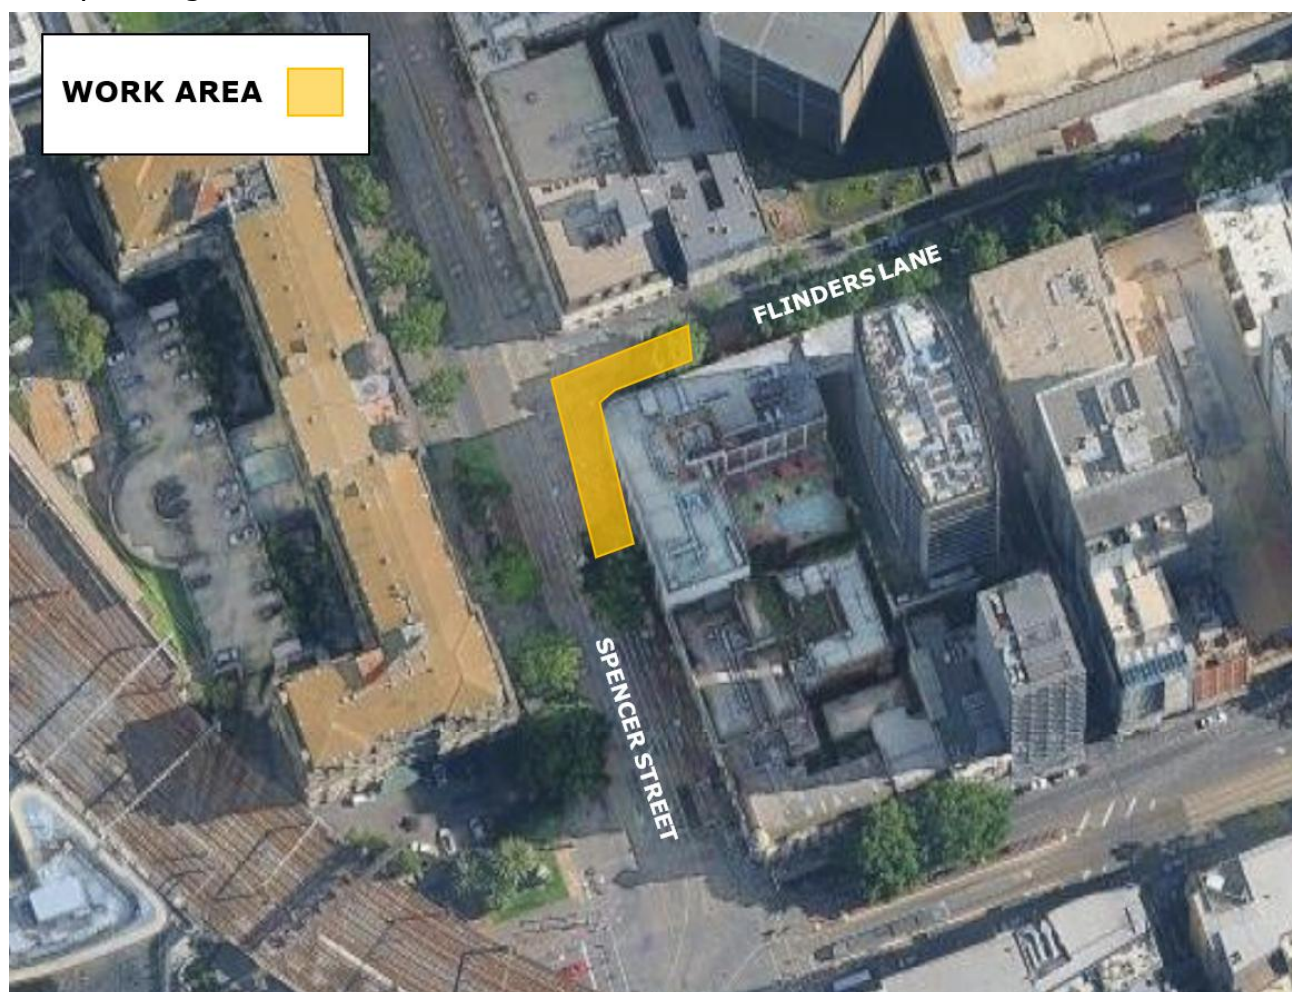

Access to businesses and properties will be maintained at all times.

Working hours

Works will occur **during the day** between **9:30am and 3:30pm, every day except Saturday**. Works are scheduled for this time to minimise impacts during peak transport periods and to meet permit conditions.

Map of site investigation works at corner of Spencer Street and Flinders Lane

Signage and on-site personnel will help vehicles, pedestrians and cyclists to move safely through the area.
