

13 September 2024

Update – Temporary traffic changes as part of Rockbank Sewer Diversion project

Greigs Road lane closure

We are constructing a new sewer main along Greigs Road, Rockbank to respond to local growth and provide a safe and reliable sewer service to the community.

Construction is now underway, and we have successfully installed around 500m of the new sewer. While the original plan was to build within the road reserve on Greigs Road, due to the proximity of other underground assets, part of the new sewer will now need to be constructed directly along Greigs Road.

Changes to traffic

Changes to traffic will include:

- We will be working along Greigs Road for around 3 weeks, starting in mid-September and continuing through to mid-October.
- During this time, traffic will be reduced to a single lane. Temporary traffic lights will be installed to manage vehicle flow through the area.
- You may notice temporary speed reduction and lane closures along other sections of Greigs Road.
- Traffic management will be on site to help vehicles, pedestrians and cyclists move safely through the area.

Location

Ongoing works: what to expect

While we make every effort to minimise disruption and inconvenience to you, the following will continue to be expected:

- We will work from 7am to 5pm Monday to Friday.
- We will notify you in advance if you are likely to be impacted by night works.
- There may be construction noise and dust from machinery and construction vehicles during working hours.
- Your water and sewerage services will not be interrupted during these works.
- These works will be carried out on our behalf by Jaydo.

What have we completed so far?

Since July 2024 we have completed:

- Site establishment and early works
- Environmental and cultural heritage compliance works
- Construction of about 300m of the main towards the eastern end, between 64 and 118 Greigs Road, Rockbank
- Construction of about 200m of main towards the western end, near 230-260 Greigs Road, Rockbank
